

Q2: Anatomy

- Discuss TWO aspects of tree anatomy with regards to ONE of the DOMINANT species at your site, such as
 - Bud/Shoot development (fixed growth, free growth, multiple flushing)
 - Earlywood vs. latewood development
 - Root grafting
 - Mycorrhizae/Rhizobium relationships
 - Leaf color
 - Leaf shape/size
 - Sun vs. shade leaves
 - *Or any other topic covered in class that is of interest to you*
- At the end of this section, I have the following question regarding anatomy:
